

Tactics: Moving Target / Moving Shooter

The topics of moving while shooting and shooting at a moving target have proved to be heated sources of debate.

To put to rest many of these arguments, watch the video and read the article to learn the real answers. [Click here.](#)

Facility Spotlight: 1000 yard KD Range

The facilities at Tiger Valley include a 27-position, zero-angle, 1000-yard known distance range with pit service. Learn why this is important to long-range shooting and training by watching a demonstration, [click here.](#)

Upcoming Class: Level 1 Shotgun

Just like every other small arms weapon system, shotguns require knowledge of the platform and training. Learn the basics of effective shotgun use at Tiger Valley's one-day shotgun class on December 8. To read a student's review of a past shotgun class, [click here.](#)

Vendor Spotlight: CS GunWorks

Just like the rest of us, Mike Cecil encountered enough poor customer service from firearm-related vendors to write a book. A longtime competitive shooter, he opened CS GunWorks based on the novel idea that the customer is doing the favor for the vendor, not the other way around. Since then his Sacramento-area business has won a stellar reputation selling high-end optics and other firearm-related gear.

In addition to off-the-shelf products from Leupold, US Optics, NightForce, and Schmidt and Bender, CS GunWorks provides equipment not available elsewhere. Working with the Leupold Custom Shop, Mike stocks special products such as an illuminated Mark 4 4.5-14x50mm LR/T with ½ moa M2 knobs. Shooters looking for a high performance optic in a smaller package can find a Mark 4 4.5-14x40mm LR/T M1 TMR, another scope unique to his business.

US Optics, having gained their deservedly fantastic reputation in the tactical shooting community, now has a 12 week lead time on their factory-ordered, high end scopes. Stocking a collection of scopes with T-PAL adjustments and the EREK knob, CSGunWorks has product ready to ship.

Development of the US Optics S10S (also known as the CSGW-ST10), a slimline version of the fixed-power S10, was prompted by CS GunWorks.

Products from vendors including 5.11, Wiley X, Eagle, and Tac-Force are also stocked and available. Specialty gear,

including night vision and body armor, is available for specific customer needs.

In addition to their web presence at www.csqgunworks.com, Mike runs a walk-in store, Tactical Solutions Plus, located at 9714 Franklin Boulevard, in Elk Grove, California 95758. For any of your shooting needs, be sure to visit them online, at their retail store, or call for an appointment at their retail store to receive in house customer services at it's finest, at (916) 670-1103.
